

IoT Smart Home hub compatible with WiFi, Zigbee + Z-Wave and multimedia functionalities through its Smart TV function, USB and SD card ports.

INSTALLATION

1. Connect the HDMI cable to your Smartee and TV.
2. Connect the power supply and plug it to the AC line.
3. Connect the Air Mouse Dongle to navigate the O.S.
4. Download the mobile App (available for Android and IOs) or access the desktop app at my.webeelife.com.
5. Enjoy your Smartee!

SPECIFICATIONS

Power:	Switching adapter Input: 100-240V AC 50/60 Hz 0.35A Output: 5V DC 2.0A
Signal ZigBee:	2400 ~ 2480 MHz, 250Kbps capable
Range ZigBee:	Outdoor range of Communication: 90 - 150 feet. Indoor range of Communication: 30 - 90 feet.
Home Automation Profile:	1.2
Signal Z-Wave:	USA/CANADA Bandwidth: 908.40MHz Mexico Bandwidth: 908.40MHz Europe Bandwidth: 868.40MHz New Zealand Bandwidth: 921.40MHz Australia Bandwidth: 921.40MHz Hong Kong Bandwidth: 919.80MHz China Bandwidth: 868.4 MHz Taiwan Bandwidth: 922-926 MHz South Africa Bandwidth: 868.4 MHz Chile Bandwidth: 908.4 MHz Brazil Bandwidth: 921.4 MHz
Range Z-Wave:	Outdoor range of Communication: 90 - 150 feet. Indoor range of Communication: 30 - 90 feet.
O.S.:	Android 4.2
CPU:	ARM Cortex A9 Microprocessor- Dual Core
Working Frequency:	1.5GHz
System Memory:	1 GB DDR3
Internal Storage:	2GB NAND Flash

GPU:	Mali 400 x 2
Video Interface:	HDMI 1.4
USB	USB 2.0 x 2
Connectivity:	
Maximum output video resolution:	1920 x 1080 60Hz
Wired	
Communication connectivity:	Ethernet LAN 10/100
Wireless	
Communication connectivity:	IEEE 802.11 b/g/n

COMPATIBILITY WITH ZigBee® DEVICES HA1.2

The Smartee features out-of-the-box compatibility with any ZigBee HA 1.2-certified devices.

COMPATIBILITY WITH Z-Wave DEVICES

The Smartee features out-of-the-box compatibility with any Zwave Plus-certified devices.

FCC NOTICE

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician to help.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
